Projects

North Campus - Projects Under Construction

North Campus Housing Phase 1
Expanding the supply of on-campus housing to approximately 37% of the student population, this 1,060 bed project including common spaces (such as vending, laundry, mail areas and administrative offices), and a cafe and satellite bookstore to serve the North Campus population is slated for completion in September 2009. The project will provide housing for undergraduate transfer and upper-division students and enhance their opportunity to participate in the academic and extracurricular life of the campus.

Rimac Annex (Recreation and Intramural Athletics Center)
Expanding and complementing the existing RIMAC operations this, multi-use facility will support a variety of activities ranging from large spectator events including ceremonies and concerts to athletic competitions and tournaments. The project will be completed in August 2009.

Sanford Consortium For Regenerative Medicine (SCRM)
SCRM is a non-profit, public benefit corporation formed by the Burnham Institute for Medical Research, the Salk Institute for Biological Studies, the Scripps Research Institute, and UC San Diego. This project includes research laboratories, office space, and building support space and will serve as a hub of innovative multidisciplinary, basic, translational, and preclinical research programs, and outreach programs that will advance stem cell research and education. The project is slated for completion in December 2010.

‘Extreme Green’ Theme of Earth Week Extravaganza at UC San Diego
UC San Diego, one of the “greenest” universities in the country, celebrated Earth Week (April 20-25) with 20 “Extreme Green” events, ranging from a trash sort and a green job fair to an eco-friendly fashion show. Maggie Souder, the university's sustainability coordinator, said that this year’s extreme green theme illustrated how UC San Diego, a world leader in climate change research, is aggressively committed to sustainability through the development of alternative fuels, renewable energy sources, waste diversion, water conservation and green building strategies and others.

UCSD Community Planning Website Information
The Newsletter and Project information sheets along with an interactive map of campus projects are now available on the UCSD Community Planning website http://commplan.ucsd.edu/UCSDprojects.htm. Visit the website to learn more about campus growth with accompanying information on a particular building or project that is in the planning or construction phase or has already been completed.
