PROJECTS

Location of instructional and research facilities, as well as necessary campus support facilities, such as housing and parking, is directed by UCSD’s Long Range Development Plan (LRDP), which is prepared in response to campus enrollment and population projections. Available on the Community Planning website at [http://commplan.ucsd.edu/UCSDprojects.htm](http://commplan.ucsd.edu/UCSDprojects.htm) is the Capital Improvements Status Map which is an interactive map where each project link leads to a detailed project information sheet.

PROJECTS UNDER CONSTRUCTION — EAST CAMPUS

- **East Campus Office Building** — 75,000 gross square feet (GSF) with anticipated completion in August 2011. The project will comprise new space for office, administrative and clinical research activities.
- **East Campus Parking Structure** — 1,253 parking spaces with anticipated completion in December 2011. The project will include parking and a recreation field under which some of the spaces will be constructed.
- **Sulpizio Cardiovascular Center** — 128,000 GSF building with anticipated completion in March 2011. The project will provide a state-of-the-art facility in heart and vascular disease, and stroke management.

PROJECTS UNDER CONSTRUCTION — WEST CAMPUS

- **Health Sciences Biomedical Research Facility** — 196,000 GSF with anticipated completion in April 2013. The project will provide research and support space for Health Sciences needed to advance major interdisciplinary programs, including Medical Genomics.
- **Rady School of Management Phase 2 (RSOM)** — 80,000 GSF with anticipated completion in July 2012. The project will include construction of additional classrooms to Rady Phase 1, an open class laboratory, faculty and administrative offices, conference rooms, an auditorium, and student work and study areas.
- **Sanford Consortium for Regenerative Medicine (SCRM)** — 145,000 GSF, ground lease project with anticipated completion in December 2011. SCRM, a 501(c)3 non-profit, public benefit corporation is formed by the Sanford-Burnham Institute for Medical Research, the Salk Institute for Biological Studies, The Scripps Research Institute, and UC San Diego. The facility will serve as a hub of innovative multidisciplinary, basic, translational, and preclinical research programs, and outreach programs that will advance stem cell research and education.
- **Southwest Fisheries Science Center (SWFSC)** — 124,000 GSF, ground lease project with anticipated completion in December 2011. The project is developed by the National Oceanic and Atmospheric Administration (NOAA). The facility will provide safe and modern accommodations for SWFSC and support the research collaborations between SIO and SWFSC.
- **Structural Materials and Engineering Building** — 169,000 GSF with anticipated completion in August 2012. The project will provide instruction and research space for the Department of Structural Engineering and Department of Visual Arts. The facility will merge the areas of advanced materials testing with scientific visualization.
- Student housing projects with anticipated completion in 2011: **North Campus Housing Phase 2** - 806 beds, **Revelle College Apartments** - 510 beds and **Muir College Apartments** - 275 beds. These projects will add a combined total of 1591 on campus beds.
- **Telemedicine and Prime HEq Facility** — 92,000 GSF with anticipated completion in September 2011. The project will accommodate a new program in Medical Education and support a major new telemedicine initiative to improve health care access to medically underserved populations and other “at risk” populations.
UPCOMING PROJECTS — LOOKING AHEAD TO 2011

CENTRAL RESEARCH SERVICES FACILITY — construction anticipated Fall 2011.

CLINICAL AND TRANSLATIONAL RESEARCH INSTITUTE — environmental review anticipated in Spring 2011

MESOM LABORATORY BUILDING — coastal commission anticipated February 2011 and construction planned to start Spring 2011.

SIO RESEARCH FACILITY — begin planning/design in Spring 2011.

UNIVERSITY HOUSE — environmental review anticipated in Spring 2011.

FOUNDERS’ DAY – UNIVERSITY CELEBRATES 50TH BIRTHDAY

A flurry of eminent speakers, musicians, cheerleaders and dancers took the stage Thursday, November 18th at UC San Diego to celebrate Founders’ Day. The event commemorated the campus’ 50th anniversary, more specifically the exact date when officials signed the documents that established the campus in 1960.

“This is truly a remarkable moment for UC San Diego, and for each of us, because we are witnessing and creating history on this 50th anniversary,” Chancellor Fox told a crowd of about 1,400 gathered in the campus’ town square and in Matthews Quad.

During the two-hour celebration, members of the UCSD community heard from faculty, students, alumni, supporters and current and former administrators, including Fox, Dynes and former UC President and UCSD Chancellor Richard Atkins on, who recorded a video message for the occasion.

Oceanographer Walter Munk reminisced about his friendship with Roger Revelle. Former UC President and UCSD Chancellor Robert Dynes highlighted the importance of supporting students. Chancellor Marye Anne Fox told the audience about asking President Barack Obama for more student support while at the White House to receive her National Medal of Science.

Fox invoked the memory of Revelle during the event. “Fifty years ago, UC San Diego visionary and founder Roger Revelle had one criterion for this campus,” Fox said. “It must be distinctive. And that’s exactly what we’ve become – a distinctive and world-class university accomplished in education, research, service, patient care and innovation.”

The university’s influence was recognized by a proclamation declaring Nov. 18 UC San Diego Day in the City of San Diego. Mayor Jerry Sanders, with City Council members Sherri Lightner and Todd Gloria, presented the document to Chancellor Fox during Thursday’s event. “This university has had a tremendous impact on San Diego,” Sanders said.

The campus has a $7 billion impact on the region, Sanders said. Its influence can be felt throughout the fabric of San Diego’s business culture, from biotech to clean tech, he added. One-third of the city’s biotech companies are affiliated with the university.

Former UC President and UCSD Chancellor Robert Dynes speak about the need to support students. In light of the current budget crisis, private support is critical for the university, Dynes also said. The economy shouldn’t limit the aspirations of members of the UCSD community; their only limit should be their imagination, Dynes said.

“This history of UCSD is remarkable,” he said. “It’s just a marvelous place.”
