PROJECTS

Location of instructional and research facilities, as well as necessary campus support facilities, such as housing and parking, is directed by UCSD’s Long Range Development Plan (LRDP), which is prepared in response to campus enrollment and population projections. Available on the Physical and Community Planning website at http://physicalplanning.ucsd.edu/projects/index.html is the Capital Improvements Status Map which is an interactive map where each project link leads to a detailed project information sheet.

SANFORD CONSORTIUM FOR REGENERATIVE MEDICINE

Located at UCSD’s North Torrey Pines Area, the Sanford Consortium for Regenerative Medicine (SCRM) opened on November 29th, 2011.

SCRM is a 501(c)3 non-profit, public benefit corporation formed by the Burnham Institute for Medical Research, the Salk Institute for Biological Studies, The Scripps Research Institute, and UC San Diego. This project provides research laboratories, office space, and building support space. The building houses core facilities of quality and scope more substantial than could be supported by any SCRM member alone including robotics, disease modeling, imaging, and protein and nucleic acid facilities.

Designed by Fentress Architects in Denver, Colorado in association with Davis Davis Architects in San Diego, the facility will serve as a hub of innovative multidisciplinary, basic, translational, and preclinical research programs, and outreach programs that will advance stem cell research and education. The Sanford Consortium for Regenerative Medicine combines the intellectual resources of four of the world’s leading biomedical research institutions to enable San Diego’s brightest researchers to work side-by-side to harness the regenerative power of stem cells to develop means to diagnose, treat and ultimately cure degenerative diseases and injuries.
NEWS

UCSD COMMUNITY PLANNING NEWSLETTER AND WEBSITE INFORMATION

The Fall 2011 issue of the newsletter with a focus on the Scripps Institution of Oceanography, together with project information sheets and an interactive map of campus projects is available on the UCSD Physical and Community Planning website at http://physicalplanning.ucsd.edu Visit the website to learn more about campus development with accompanying information on specific projects.

VISITORS TOUR PROGRAM

The UC San Diego Visitors Tour Program offers free tours to area residents, new faculty and staff, first-time visitors to our campus and the general public. These 90-minute Sunday afternoon tours are led by knowledgeable adult volunteer guides who are eager to show you the most notable features of our beautiful campus. The public tours highlight campus history, art and architecture

Two types of tours are offered:

- **Walking Tours** are offered the first Sunday of each month. Take a leisurely stroll through the heart of campus to discover its award-winning architecture and one-of-a-kind art pieces while learning more about the university and its history.
- **Bus Tours** are offered the remaining Sundays of each month. Take a scenic ride for a general overview of the campus with stops at major campus landmarks.

All tours begin at the Gilman Entrance Information Center.

Special tours for large groups can be arranged for any day of the week. For more information, call (858) 534-4414 or email visitorsprogram@ucsd.edu.

Prospective student or student group? The Visitors Tour is not a student tour. To find out about student tours, visit the Campus Tours Website or call (858) 822-4750 for more information.
