COMPRESSED NATURAL GAS (CNG) FACILITY

PROJECT LOCATION
East Campus Health Sciences Neighborhood

PROJECT DESCRIPTION
This project will construct a Compressed Natural Gas (CNG) fueling station adjacent to the East Campus Utility Plant. Following the implementation of this project the campus will be transitioning its current fleet of shuttle buses to CNG compatible vehicles.

PROJECT PURPOSE
Consistent with UC San Diego’s goal of becoming a state-of-the-art carbon-neutral campus that embraces facility designs and maximizes “green” operations, implementation of this facility will help the campus meet important University of California environmental sustainability policies, which include Federal and State legislation mandates that require the use of cleaner fuels and less polluting vehicles.

CURRENT PHASE
Design Development (Design/Build Contract)

COMPLETION DATE
May 2010 - site improvements completed

ENGINEERS
Clean Energy, Inc

Note: Capital projects develop over time, therefore the information on this project sheet is likely to change over time. For the latest information and data please contact the Community Planning office at commplan@ucsd.edu
