OSLER PARKING STRUCTURE

LOCATION
School of Medicine Neighborhood

DESCRIPTION
Located at the corner of Gilman Drive and Osler Lane, the project proposes to build 1200 to 1400 parking spaces, replacing parking lot P604 (250 spaces) and adjacent to the Grove boundary in the School of Medicine neighborhood. The proposed parking structure’s adjacency to Gilman Drive allows for access from Gilman into the structure, reducing traffic on Osler Lane.

PURPOSE
Parking occupancy rates at peak on campus range from 94% to 98%. The site was identified because several major campus destinations are within a 10 minute walk. The project will undergo a competitive design-build selection process.

COST
$34 million

FUND SOURCE
Campus funds

CURRENT PHASE
Design Phase

COMPLETION DATE
TBD

ARCHITECT
TBD (Design-Build)
