PROJECT LOCATION
Sixth College Neighborhood

PROJECT DESCRIPTION
This project will provide 169,000 gross square feet of instruction and research space for the Department of Structural Engineering and the Department of Visual Arts, including instructional, research laboratory, and office space for the Department of Structural Engineering; research laboratory and office space for the interdisciplinary Materials Engineering research group; and instructional, research laboratory and studio space for the Department of Visual Arts.

PROJECT PURPOSE
Consistent with the interdisciplinary philosophy of UC San Diego, this project will enable interactions among faculty and students who engage in design and materials and structures of large art work with those who focus on the design and materials and structures found in buildings and other engineered structures. The facility will merge the areas of advanced materials testing with scientific visualization.

PROJECT COST
$82.5 million

FUND SOURCE
State and campus funds

CURRENT PHASE
Completed August 2012

ARCHITECT
Safdie Rabines Architects and Miller Hull Architects
